1

MERCHANT STORY

Table of Contents

Follow the journey of **Sri Lakshmi Textiles Pvt Ltd** — from first registration on the platform to their first dispute resolution. Every screen, every field, every expected result.

0

Admin Setup — Create the Team

Login as Admin · Create 4 role-based users (MERCHANT_OPS, RISK, RECON, DISPUTES)

1

Merchant Onboarding

Create merchant · Submit KYC · Watch auto-activation · Set settlement & pricing

2

Open a Store

Create the first physical store under the merchant

3

Provision a POS Terminal

Register a terminal · Create a param profile · Assign to store

4

Configure Risk Rules

Create 2 rules · Add a stolen card to blacklist

5

Process Transactions

5 transactions: Approved · Voided · Refunded · Blocked by rule · Blocked by blacklist

6

Close Batch & Run Settlement

Close EOD batch · Run settlement · Generate payout · Apply adjustment

7

Process a Refund

Customer returns defective goods · Refund issued

8

Raise & Resolve a Dispute

Open case · Attach evidence · Advance through all stages · Close as won

9

Reconciliation & Reports

Upload scheme recon file · Generate monthly summary report

CHAPTER 0

Admin Setup — Create the Team

Before any business can happen, the Admin must set up role-based users. Each person on the ops team gets exactly the access they need — no more, no less.

Log in as

System Administrator

admin / Admin@123

Open the app

Navigate to `http://localhost:5173` → Login page → enter credentials above.

CHAPTER 1

Merchant Onboarding

Priya from the Merchant Ops team onboards **Sri Lakshmi Textiles Pvt Ltd** — a Chennai-based retail textile company that wants to accept card payments.

Log in as

Priya Sharma

priya / Priya@123

STEP 1 — GO TO: MERCHANTS → "ADD MERCHANT"

Create the Merchant

Field	Value to Enter
Legal Name	Sri Lakshmi Textiles Pvt Ltd
Trade Name	Sri Lakshmi Textiles
Business Type	RETAIL
MCC Code	5651
GST Number	33AABCS1429B1ZB
PAN	AABCS1429B
Email	contact@srilakshmi.com
Phone	04428501234
Address	45, Anna Salai, T Nagar
City	Chennai
State	Tamil Nadu
Pincode	600017
Country	India

Status after creation: **PENDING**

The merchant is registered but not yet active. Submitting the first KYC document will automatically activate them.

STEP 2 — GO TO: MERCHANT DETAIL → KYC TAB → "SUBMIT KYC"

KYC Document 1 — GST Certificate

Field	Value to Enter
Document Type	GST_CERTIFICATE
Document Ref	GST-33AABCS1429B1ZB-2024
Notes	GST certificate valid till March 2026

Auto-Activation Happens Here!

The moment you submit the first KYC document, the system automatically flips the merchant from **PENDING** → **ACTIVE** . The status badge on the page refreshes instantly — no manual activation needed.

KYC Document 2 — PAN Card

Field	Value to Enter
Document Type	PAN_CARD
Document Ref	PAN-AABCS1429B
Notes	PAN card of the company

STEP 3 — MERCHANT DETAIL → SETTLEMENT TAB → "CREATE PROFILE"

Settlement Profile

Field	Value to Enter
Settlement Cycle	DAILY
Bank Account Ref	HDFC-SLTPL-00124567
Reserve %	5

STEP 4 — MERCHANT DETAIL → PRICING TAB → "CREATE PRICING MODEL"

Pricing Model

Field	Value to Enter
Model Type	MDR
MDR %	1.75
Per Transaction Fee (₹)	2.00
Scheme Fee Pass-Through	NO
Effective From	2026-05-07

Field	Value to Enter
Effective To	2027-03-31

CHAPTER 2

Open a Store

Sri Lakshmi Textiles has one physical outlet in Chennai. Priya creates it under the merchant profile.

Still logged in as

Priya Sharma

priya / Priya@123

GO TO: [MERCHANT DETAIL](#) → [STORES TAB](#) → ["ADD STORE"](#)

Field	Value to Enter
Store Name	Sri Lakshmi Textiles – T Nagar
Address	45, Anna Salai, T Nagar
City	Chennai
State	Tamil Nadu
Pincode	600017
Phone	04428501234
Manager Name	Ramesh Kumar

Note the Store ID

After saving, note the Store ID shown in the list (e.g.,
1
). You'll need it when provisioning the terminal.

CHAPTER 3

Provision a POS Terminal

A physical Ingenico Move 5000 POS machine is being deployed at the T Nagar store. Admin registers it on the platform and sets up its parameter profile.

Switch to

System Administrator

admin / Admin@123

GO TO: [TERMINALS](#) → ["ADD TERMINAL"](#)

Field	Value to Enter
Store	Sri Lakshmi Textiles – T Nagar (Store ID: 1)
Serial Number	POS-TN-2024-001
Model	Ingenico Move 5000
Status	ACTIVE

Note the Terminal ID

e.g.,

1

. This is required for every transaction you process.

GO TO: TERMINALS → PARAM PROFILES → "CREATE PROFILE"

Parameter Profile — Standard Retail

Field	Value to Enter
Profile Name	Standard Retail Profile
Max Transaction Amount	100000
Currency	INR
Timeout (seconds)	30
Params JSON	<code>{"emv":true,"contactless":true,"fallback":false}</code>

CHAPTER 4

Configure Risk Rules

Before the terminal goes live, Arjun the Risk Analyst sets up fraud detection rules. Every transaction will be scored against these rules in real-time before authorization is granted.

Log in as
Arjun Nair

arjun / Arjun@123

GO TO: RISK → RULES → "ADD RULE"

Rule 1 — Block Very High-Value Transactions

Field	Value to Enter
Rule Name	Block Transactions Above 1 Lakh
Rule Type	AMOUNT_LIMIT
Threshold	100000
Action	BLOCK
Severity	HIGH
Description	Block any single txn over ₹1,00,000

Rule 2 — Flag Mid-Range Suspicious Amounts for Review

Field	Value to Enter
Rule Name	Review High Value Transactions
Rule Type	AMOUNT_LIMIT
Threshold	50000
Action	REVIEW
Severity	MEDIUM
Description	Flag txns between ₹50,000 - ₹1,00,000 for manual review

GO TO: RISK → BLACKLIST → "ADD ENTRY"

Blacklist Entry — Reported Stolen Card

Field	Value to Enter
PAN	4000000000000002
Reason	Reported stolen card – chargeback history from 3 merchants

Blacklisted cards are always blocked

Any transaction on PAN `4000000000000002` will be blocked regardless of amount — even ₹1 will be rejected.

HOW RISK SCORING WORKS

ALLOW

Score < 50
Transaction proceeds

REVIEW

Score 50–79
Logged, still processed

BLOCK

Score ≥ 80
Transaction rejected

Process Transactions

The T Nagar store is now live. Customers start shopping. We'll process 5 transactions — each one demonstrating a different outcome.

Log in as

System Administrator

admin / Admin@123

Go to:

Transactions → Transaction Simulator

for all 5 transactions below.

1

Normal Purchase — 3 Sarees

₹4,500

A customer buys 3 Kanjivaram sarees. Standard transaction, no risk flags.

Field	Value
Terminal ID	1
Merchant ID	1
PAN	4111111111111111
Amount	4500
Currency	INR
Type	AUTHORIZE

✓ **APPROVED** Note the Auth ID (e.g., 1) — needed for the void in Chapter 5.

2

Dress Material Purchase

₹8,200

Another customer buys dress materials. This one will be refunded later (defective goods).

Field	Value
Terminal ID	1
Merchant ID	1
PAN	4111111111111112
Amount	8200

Field	Value
Currency	INR
Type	AUTHORIZE

✅ **APPROVED** Note Auth ID (e.g., 2) — needed for the refund in Chapter 7.

Void — Customer Cancelled the Saree Order

₹4,500

The customer from Transaction 1 changed her mind before dispatch. Go to Transactions → find Auth ID 1 → click "Void".

Field	Value
Auth ID	1 (pre-filled)
Reason	Customer cancelled order before dispatch

↻ **VOIDED** ₹4,500 reversed. Not included in settlement.

Blocked by Risk Rule — ₹1.2 Lakh Attempt

₹1,20,000

Someone attempts a ₹1,20,000 transaction. Rule 1 triggers immediately and blocks it.

Field	Value
Terminal ID	1
Merchant ID	1
PAN	411111111111113
Amount	120000
Currency	INR
Type	AUTHORIZE

BLOCKED

Rule: "Block Transactions Above 1 Lakh". Check Risk → Events to see the log.

Blocked by Blacklist — Stolen Card

₹500

Fraudster attempts to use the stolen card we blacklisted earlier. Even for just ₹500, it's rejected instantly.

Field	Value
Terminal ID	1
Merchant ID	1

Field	Value
PAN	4000000000000002
Amount	500
Currency	INR
Type	AUTHORIZE

🚫 **BLOCKED** Blacklisted PAN. Amount is irrelevant. Card is permanently blocked.

3

Bulk Saree Order — Corporate Purchase

₹22,000

A corporate customer buys sarees in bulk for a company event. This will later be disputed.

Field	Value
Terminal ID	1
Merchant ID	1
PAN	4111111111111114
Amount	22000
Currency	INR
Type	AUTHORIZE

✅ **APPROVED** Note Auth ID (e.g., 3) — will be disputed in Chapter 8.

CHAPTER 6

Close Batch & Run Settlement

End of business day. Karthik closes the terminal batch and runs settlement so Sri Lakshmi Textiles gets paid.

STEP 1 — CLOSE THE EOD BATCH (ADMIN)

Log in as

System Administrator

admin / Admin@123

Go to:

Transactions → Batch Management → "Close Batch"

Field	Value
Terminal ID	1

Batch closed!

Only APPROVED transactions are captured. The voided ₹4,500 is excluded.

Captured: ₹8,200 (Auth 2) + ₹22,000 (Auth 3) = ₹30,200

STEP 2 — RUN SETTLEMENT

Switch to

Karthik Raja

karthik / Karthik@123

Go to:

Settlements → "Settle Merchant"

Field	Value
Merchant	Sri Lakshmi Textiles Pvt Ltd (ID: 1)

Settlement Calculation

Gross Settlement Amount	₹30,200.00
MDR Fee (1.75% × ₹30,200)	– ₹528.50

Per-Txn Fee (2 txns × ₹2.00)

– ₹4.00

Reserve Hold (5% × ₹30,200)

– ₹1,510.00

Net Payout to Merchant

₹28,157.50

STEP 3 — GENERATE PAYOUT

On the Settlement Batch page → click
"Generate Payout"

Field	Value
Settlement Batch ID	(auto-filled)
Bank Account Ref	HDFC-SLTPL-00124567

STEP 4 — APPLY A CREDIT ADJUSTMENT

Go to:
Settlements → Adjustments → "Add Adjustment"

Field	Value
Merchant ID	1
Amount (₹)	50.00
Type	CREDIT
Reason	Fee reversal for overcharge in April 2026 – double billing correction on settlement batch #2

CHAPTER 7

Process a Refund

The customer who bought ₹8,200 worth of dress material (Auth ID 2) reports that the fabric was defective. The store processes a full refund.

Log in as

System Administrator

admin / Admin@123

Go to:

Transactions → find Auth ID 2 (₹8,200) → click "Refund"

Field	Value
Auth ID	2 (pre-filled)
Reason	Customer returned goods – defective fabric received

Refunded!

₹8,200 will be credited back to card 411111XXXXX1112 within 5-7 business days.

CHAPTER 8

Raise & Resolve a Dispute

The corporate customer who paid ₹22,000 (Auth ID 3) calls their bank claiming they never received the sarees. The issuing bank initiates a chargeback.

Switch to

Meena Devi

meena / Meena@123

STEP 1 — OPEN THE DISPUTE

Go to:

Disputes → "Open Dispute"

Field	Value
Transaction ID	3
PAN (masked)	411111XXXXXX1114
Reason Code	4853

**Reason Code 4853**

= "Cardholder Dispute — Merchandise or Services Not as Described". This is the most common chargeback reason in retail.

STEP 2 — THE DISPUTE JOURNEY (4 STAGES)

RETRIEVAL BANK ASKS FOR EVIDENCE	CHARGEBACK BANK DEBITS MERCHANT	REPRESENTMENT MERCHANT FIGHTS BACK	ARBITRATION SCHEME DECIDES
--	---	--	--------------------------------------

STEP 3 — ATTACH EVIDENCE (DISPUTES → CASE ID 1 → "ADD DOCUMENT")

Field	Value
Case ID	1
Document Type	DELIVERY_PROOF
URI	https://docs.srilakshmi.com/delivery/order-3-proof.pdf

STEP 4 — ADD ACTION NOTES & ADVANCE STAGES**Action 1 — Evidence Submitted (Stage: RETRIEVAL)**

Field	Value
Action Type	EVIDENCE_SUBMITTED
Actor ID	5
Notes	Delivery proof uploaded. Courier tracking shows delivered 2026-05-01 at 14:32 IST. Signature captured.

Click **Advance Stage** → RETRIEVAL → **CHARGEBACK**

Action 2 — Chargeback Received (Stage: CHARGEBACK)

Field	Value
Action Type	CHARGEBACK_RECEIVED
Actor ID	5

Field	Value
Notes	Issuer bank raised chargeback. Preparing representment documents with courier receipts.

Click **Advance Stage** → CHARGEBACK → **REPRESENTMENT**

Action 3 — Representment Filed (Stage: REPRESENTMENT)

Field	Value
Action Type	REPRESENTMENT_FILED
Actor ID	5
Notes	Counter-evidence submitted to Visa scheme. Expecting ruling within 15 business days.

STEP 5 — CLOSE THE DISPUTE (MERCHANT WON!)

Visa card scheme reviews the delivery proof and rules in favour of Sri Lakshmi Textiles. Click "**Close Dispute**".

Dispute CLOSED — Merchant Won!

Status changes to **CLOSED** . The ₹22,000 stays with Sri Lakshmi Textiles. The cardholder's claim was rejected.

CHAPTER 9

Reconciliation & Reports

Karthik reconciles the platform's records against the scheme file received from Visa, then generates the month-end report for management.

Log in as
Karthik Raja

karthik / Karthik@123

STEP 1 — UPLOAD RECON FILE

Go to:
Recon → "Upload Recon File"

Field	Value
File Name	VISA_RECON_20260507.csv
Scheme	VISA
File Date	2026-05-07

The system matches the scheme's records against our internal transaction records. Any discrepancy (missing transaction, amount mismatch) is flagged as an exception.

STEP 2 — GENERATE MONTHLY REPORT

Go to:
Reports → "Generate Report"

Field	Value
Report Type	MONTHLY_SUMMARY
Merchant	Sri Lakshmi Textiles Pvt Ltd
From Date	2026-05-01
To Date	2026-05-07

Report generated!

Includes total volume, net settlement, fees collected, refunds issued, disputes won/lost, and risk blocks.

SUMMARY

The Full Journey at a Glance

Day 0 — Admin Setup

→ Admin creates 4 team users: Priya (MERCHANT_OPS), Arjun (RISK), Karthik (RECON), Meena (DISPUTES)

Day 1 — Onboarding

→ Priya creates Sri Lakshmi Textiles Pvt Ltd → status: PENDING
→ GST certificate uploaded → merchant auto-activates → ACTIVE
→ PAN card KYC submitted and verified
→ T Nagar store created
→ DAILY settlement + 1.75% MDR pricing configured
→ Admin provisions Ingenico terminal POS-TN-2024-001
→ Arjun sets 2 risk rules + blacklists stolen card 4000000000000002

Day 2 — Trading

→ Txn 1: ₹4,500 APPROVED → VOIDED (customer cancelled)
→ Txn 2: ₹8,200 APPROVED (will be refunded for defective goods)
→ Txn 3: ₹1,20,000 BLOCKED by risk rule (over ₹1 lakh limit)
→ Txn 4: ₹500 BLOCKED — blacklisted card
→ Txn 5: ₹22,000 APPROVED (corporate bulk order — will be disputed)
→ EOD batch closed → captured: ₹8,200 + ₹22,000 = ₹30,200

Day 3 — Settlement

→ Karthik runs settlement → net payout ₹28,157.50 (after MDR + fees + 5% reserve)
→ Payout generated to HDFC bank account HDFC-SLTPL-00124567
→ ₹50 credit adjustment applied (April overcharge correction)
→ ₹8,200 refunded to dress material customer (defective goods)

Day 4 — Dispute Resolution

→ Corporate customer disputes ₹22,000 bulk order — reason code 4853
→ Meena opens dispute case → stage: RETRIEVAL
→ Delivery proof document attached
→ Stages advanced: RETRIEVAL → CHARGEBACK → REPRESENTMENT
→ Visa rules in merchant's favour → Dispute CLOSED ✅ — Merchant keeps ₹22,000

Day 5 — Recon & Reports

→ Karthik uploads VISA_RECON_20260507.csv — system reconciles scheme vs internal records
→ Monthly summary report generated for management
